## 1. GETTING STARTED

### 1.1) Who is this User Manual for?

This User Manual is for kindergarten teachers who will be completing the EDIs on children in their classroom. The manual describes how to use the US-EDI software to complete the EDIs.

---

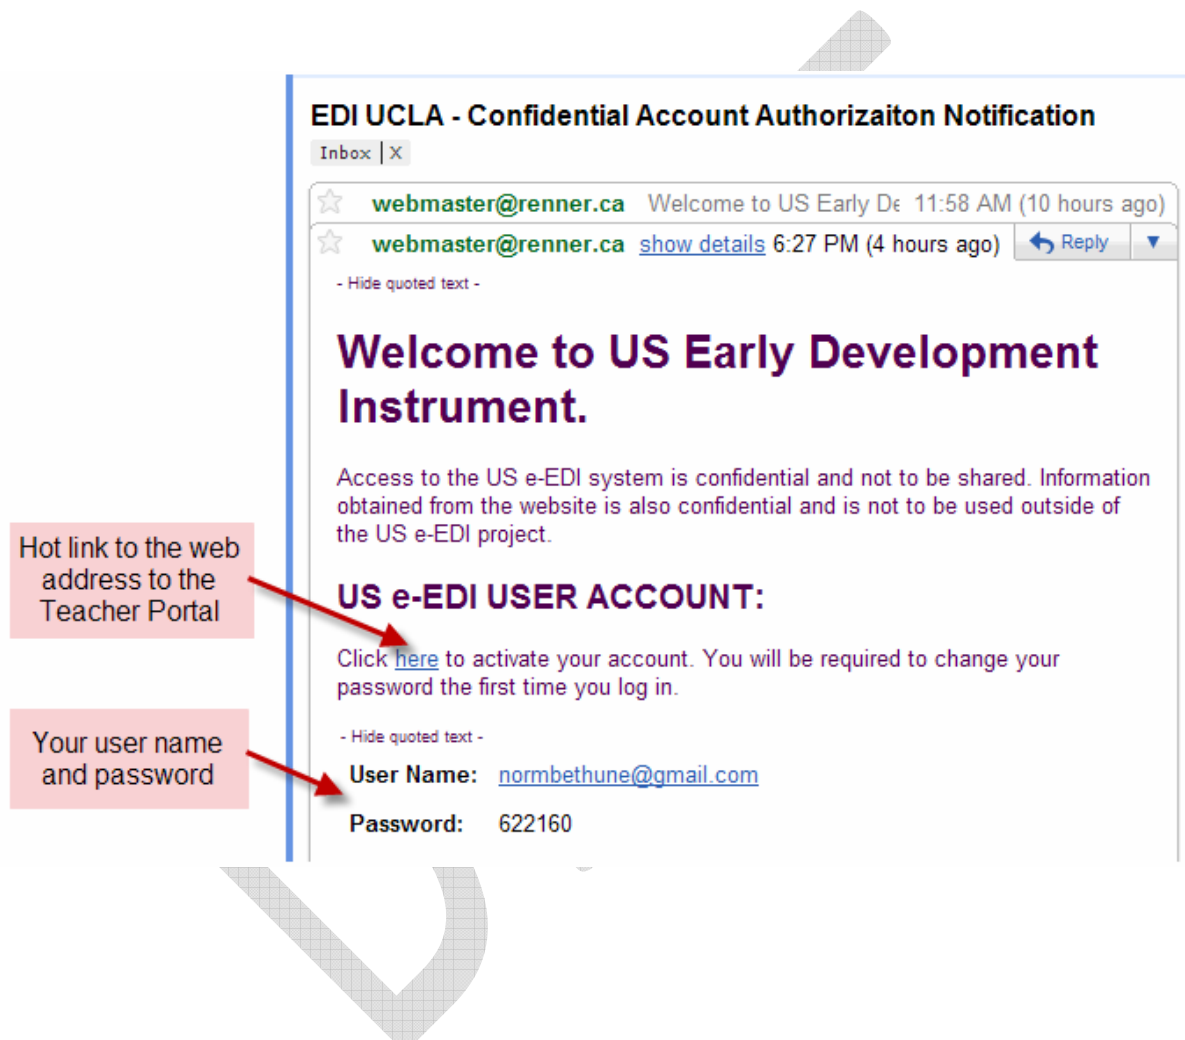

### 1.2) Before you begin US-EDI Setup...

- 1.2.1) **Review this User Manual** to get an overview of how the software works.
- 1.2.2) **Review the US-EDI questions and the Teacher Guide** that provides background on each item. You should feel reasonably comfortable with the questions that will be asked about each student. If you feel unable to answer any specific questions on a child you may save your completed US-EDI work and gather any additional information needed to complete a child's questionnaire.
- 1.2.3) **Get your login and password.** You will receive a registration email from your district administrator with the Subject line: **US-EDI: Confidential Account Authorization Notification**. This email contains your username (email address) and password along with a link to access the US-EDI software's teacher portal. If you have not received this registration email contact your local school district coordinator.
- 1.2.4) **Have your class lists available.** In order to verify or create a class list in the US-EDI teacher portal, you will need to receive a class list from your district that contains, for each child in your class, their name, local student ID, gender, and birth date. If any children are missing on the class list, you can add them in the US-EDI software. Student names do not appear in the US-EDI - only student IDs.
- 1.2.5) **Review any background,** report cards, student file, Kindergarten Registration or other information that might help you to answer the questions for each student.
- 1.2.6) **Keep a record of any students whose parents/guardians have declined permission** to participate in the EDI. Letters to parents will be sent ahead of the scheduled time for EDI data entry and if parents choose to opt out, you can take the appropriate measures during your US-EDI data entry.
- 1.2.7) **Good luck and thank you!** If you have questions or encounter any problems, contact your local coordinator or [USEDI@mednet.ucla.edu](mailto:USEDI@mednet.ucla.edu). This information is also provided on the login screen and main menu of the e-EDI.

## 2. NAVIGATING THE US-EDI ON THE WEB

### 2.1) Logging on to Teacher's Portal of US-EDI

**Step 1: Locate the registration e-mail** that was sent to you by your District Administrator with the Subject line: **US-EDI: Confidential Account Authorization Notification**. It has a hot link to the US-EDI website, your username and password:

You should be able to click on the hotlink to connect to the Teacher Portal. If for some reason this does not work, type the web address manually in your web browser: <http://usedi.ucla.edu>. (After your first successful login, you will use this web address for subsequent logins.)

Once you click the hotlink in your registration email, you will be presented the login screen (see next page)

**Step 2: Login** with the Email address and password provided to you:

If your district has uploaded your students for you into the software, you will see a list of all the students in your class by local student ID, sex, date of birth, and zip code (no student names are included in the software). Use the class list provided to you by your district, which does contain student names, student IDs, sex and date of birth, to verify the accuracy and completeness of the class list shown on the US-EDI screen. Please ensure that the Local IDs are correct and that you have a complete class list. Children's names are never included in the US-EDI for privacy reasons. .

**Step 1:** Basic class information is shown here. If you have multiple classes you should see all your classes.

**Step 2:** If the class time is incorrect, or you need to add an additional class, contact the District Administrator.

**Step 3:** Match the local ID on the screen with the local IDs on the class list provided to you by your district to verify that you have a complete class list on the screen. As a secondary verification, you can cross reference the child's sex and date of birth.

### 3. COMPLETING THE US-EDI

---

#### Before you Begin Data Entry...

Using the class list provided to you by the district, confirm your student identities and add any new or missing students. You may then proceed to begin completing the actual US-EDI questionnaires.

If you are completing the EDIs over a period of several days... Remember that you can use the Class List screen of the US-EDI to see an overview of which EDIs have been completed in each of your classes.

### 3.1) Child Demographics (Checklist) Section

When you enter EDI Questionnaires, the first screen that opens up is the **Checklist** screen. If the district preloaded your child demographic data, many of these fields will be pre-filled for you, based on the information initially loaded into the US-EDI system. If not, you will need to add this information. If any of this information is incorrect or incomplete, please enter the correct information.

**Step 1:** Double-check the Date of Birth, Sex, Zip Code and other pre-filled information.

If this is a new student you must add the demographic info.

**Step 2:** Complete every question. Click on  or  button to get help on a specific question.

#### If a student is new to class, has moved, or consent has been declined...

Question 14 gives you an opportunity to note the circumstances in which it is inappropriate for you to continue with a student's e-EDI. When you have had a student less than a month, they have moved, or consent to participate has been declined by the parent, it will be noted here.

You will then be prompted to stop completing the questionnaire and submit to UCLA.

### 3.2) Section A – Physical Health and Well-Being

Notes:

1) If you aren’t sure how to interpret certain questions, refer to the Teacher Guide. Click on the question mark icon besides the question and it will take you to the relevant item in the Guide.

2) Be sure to refer to Teacher Guide for all items that are flagged as culturally sensitive to help you answer these questions in an accurate and culturally sensitive manner.

3) Too many “don’t know” or missing data will cause child’s data to be invalid. If you have a lot of “don’t know” or missing answers, put this child’s US-EDI aside and observe the child for a few more days. Do not “test” the child, but rather watch him/her in their daily activities. Then return to the child’s US-EDI to provide more detailed answers.

### 3.3) Section B – Language and Cognitive Skills

Section B asks 40 questions about the child’s language and cognitive skills.

**Step 1:** Complete each question. Take into consideration the child’s acquisition and use of language, rather than the correct grammar.

Answer “Yes” if the skill is developed or developing well.

Answer “No” if the skill has not developed or is developing too slowly.

### 3.6) Section E – Additional Questions

Section E asks questions about the child's preschool experiences. This information will be correlated with children's EDI scores to see if there are significant correlations between a child's preschool experiences and their readiness to learn. Answer these questions about the child's preschool experiences to the best of your knowledge. Mark all selections that apply. It is recommended that districts provide preschool information to each teacher, if available in order to complete this section. In either case, it is unlikely the district will have all the information that is requested below so please fill it out completely to the best of your knowledge.

**Step 1:** Answer these questions to the best of your knowledge. Use data from the student's file if available.

**Step 2:** Use the space at the bottom of Section E for comments about the child. Please DO NOT refer to the child by name.

*If you have comments regarding the US-EDI process, layout or wording of questions, reserve those for when you complete the Teacher Feedback form at the*

**Step 2:** Click on

**Save EDI**

at the top or bottom of the screen to save your work. .

**Step 4:** Once you have completed section E you are ready to check for completeness and submit the EDI to UCLA. See the next page for instructions on checking for completeness and submitting the EDI entries.

### 3.7) Checking for Completeness and Submitting US-EDI Questionnaires

Once you have completed all of the sections and are comfortable with your answers for a given child, you may go ahead and take the steps to lock the US-EDI for this child by following the directions below:

**Step 1:** Click on **Check for Completion** once you are comfortable with your responses and have answered every question in all six sections.

EDI Questionnaire(12346) Save & Exit Exit

School Child ID:	12346
Address:	1314 Mockingbird Lane
City:	Munster
State:	

 Check for Completion

**Step 2:** A screen will appear summarizing the status of each section of that child's EDI. In this example, only sections B and C are completed. You will need to return to the incomplete sections and complete the remaining sections.

 Lock Child and Mark as Complete

**Step 3:** Once you have completed all sections, click on **"Lock Child and Mark as Complete"**.

**Step 4:** You will get a message asking if you are sure you want to continue with the locking the child's EDI. If so, click on OK.

The page at <http://brncosolutions.ca> says:

 Are you sure you want to mark this EDI as complete and lock this child's questionnaire?  
Once locked you will no longer be able to edit their EDI.

OK Cancel

You will be returned to the Class list and the Status will be marked with today's date to show that it is locked. the Child's icon on the left will turn green indicating the lock status.

Child locked successfully.

ClassID: 1 - AM						
	Local ID	Sex	Date of Birth	Zip	Status	EDI
	12345		07-16-2003			 EDI
	12346		03-01-2003		1/18/2010	 EDI

Once an US-EDI is submitted and locked, it may not be accessed or modified in any way unless you make a request from your District Administrator to unlock the child's record. The district administrator can unlock it for you but can never see any of the responses in the EDI questionnaire.

Too many "don't know" or missing data will cause child's data to be invalid. If you have a lot of "don't know" or missing answers, put this child's US-EDI aside and observe the child for a few more days. Do not "test" the child, but rather watch him/her in their daily activities. Then return to the child's US-EDI to provide more detailed answers.

### 3.8) Teacher Feedback Form

After you complete all of the EDIs, your last step is to fill out one Teacher Feedback Form. This form asks about individual demographics, teaching experience and about your satisfaction with participating in the US-EDI project.

The information you provide is anonymous because your name is never given to UCLA. Only UCLA can see your anonymous feedback. This information is always reported by groups of teachers (never by individual teacher). The information from groups of teachers helps to understand the general characteristics of the population of teachers and also helps to identify how to improve the process of implementing the EDI.

**Step 1:** From the Teacher Menu, click on Feedback Form

**Feedback Form**

When you have completed questionnaires for all your students. Please complete the e-EDI Teacher Feedback Form

This will take you to the Teacher Profile screen as illustrated below:

Based on your experience, please let us know how we can improve implementations of the EDI:

When you have completed submitted all the e-EDIs for your students and completed the Teacher Participation Form, you are done!

You have completed the e-EDI! Your completed surveys will be joined with the e-EDIs completed by your colleagues and then automatically tabulated by the US-EDI administrators. A school level EDI report will be available for download in the fall. This report is only provided to participating teachers and other school personnel.

To download this report, go to the Teacher Menu and click on **Reports** button. In addition, a Community Profile report that shows results for your geographic region (not for your school), will be provided to your community to help plan and improve services for young children.

Thank you for your hard work and the contribution you have made to helping your community improve children's readiness to learn.
